

Identity load moves Presence, not Consistency — across the same trio

A confirmed Presence-side moderator (left) set against a powered Consistency null (right).

Left input is cross-phase: v1.6 H_IdentityLoad_Direct · v0.21 Cell B · cell-level · SSRN ID pending verification. Right is this phase (v37_verdicts.json).

Component dissociation: IL-Direct CONFIRMED on Presence (v1.6) and FALSIFIED→CLEAN-NULL on ϕ -Consistency (v0.37).
