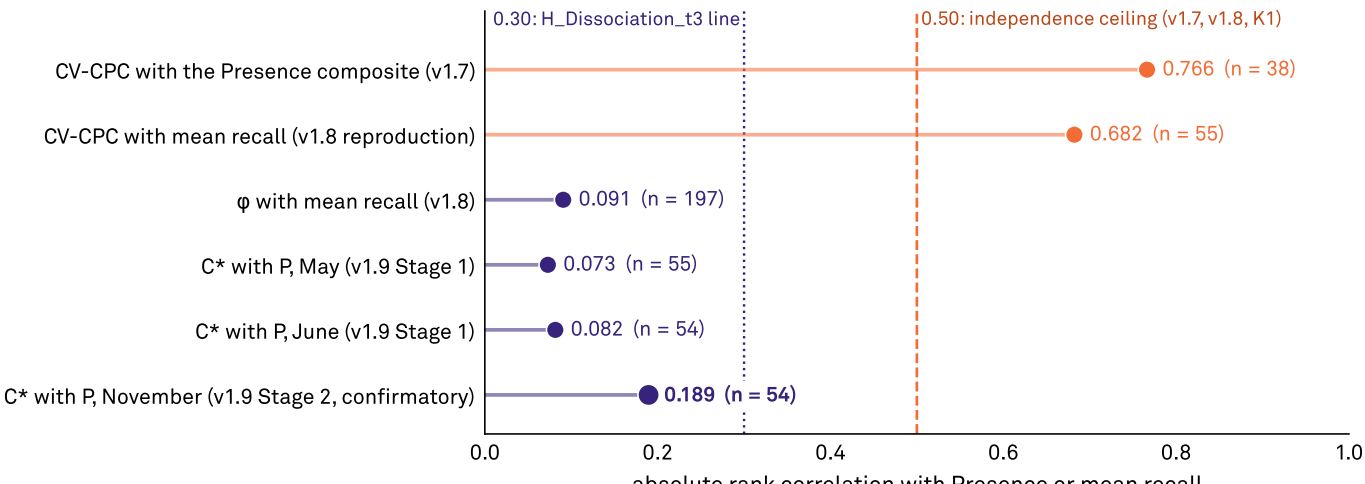
Consistency had to be rebuilt to stand apart from Presence

Coupling of each Consistency measure with how often brands are named.

CV-CPC moved with recall and was not adopted; the φ-based score stays near zero, in November as well.



H_Dissociation_t3 CONFIRMED: |ρ(C, P)| = 0.189 in November (at or below 0.30); v1.7 H_CPC_Dissociates FALSIFIED (0.766, above 0.50).*
